of empire takes it way," and so soon as Mexico becomes ripe and mellow it will be plucked as easily as was Texas. The logic of events points to this result. Nations always fight as soon as by repose and industry they Washington, October 4.—An invitation has been received by the United States gov have accumulated a little surplus energy, which is bound to explode in battle, as the which is bound to explode in battle, as the electric surcharge of the atmosphere bursts in national sanitary conference at London in thunder. The peace-pipers cannot stop wars by August, 1881. whereases and syrupy resolutions. The teach-

whereases and syrupy resolutions. The teachings of experience and the history of the past 4000 years show that nations have billed and banged each other with the view of conquest and expansion, and the story which illumines these bloody annals of the past will be repeated. The people who acquired Louisiana. Texas and nearly half of Mexico, isiana, Texas and nearly half of Mexico, the treasury officials at about \$35,000,000 and are now driving the Indians into the an indebtedness which will necessitate a rigid economy, and which, if not met, will close the public schools at an early day next spring. To avert such a calamity should be the aim of every good citizen. The parents and guardians of Memphis should renew their determination to display an increasing concern in the prosperity and perpetuity of the schools are rigid economy, and which, if not met, will close the public schools at an early day next spring. There is not so much as a spec upon the horizon. But in the course of twenty years it will require the scape-valve of war to give vent to the surplus energy and the military glory. The storm of war will break upon the continent as the cyclona breaks upon the following from Atlanta, Georgia: The United States Grand Jury found true bills against thirty-eight citizens of Georgia for armed attacks on the revenue officers of the second district while discharging their determination to display an increasing concern in the prosperity and perpetuity of the schools at an early day next spring.

There is not so much as a spec upon the horizon. But in the course of twenty years it will require the scape-valve of war to give vent to the surplus energy and the military glory. The storm of war will break upon the continent property and fired upon his family.

which we live. It is a blessing which our of the earth or perish. In Amerthe progress that has been made in the cause ica we will not have a surplus population for a thousand years to come. But in a few of American civilization. Heretofore the public schools of Memphis have constituted years it will require an immense area of ter-

culture, but more heart culture. All such reasons will indicate through life. If men were compelled in voting to give a reason before casting them the elective franchise would be confined to but few. Yet the votes of the ignorant and depraved count as powerfully as those of the intelligent and visuous. Every voter is a law maker. To purify the stream we must go to the source, and to make good citizens we must commence with the school children. Free schools are the agencies through which the work is to be done. Education not only makes good citizens, but it lessens crime. Money paid for the support of the public of the support of the support of the public of the support of the public of the support of the support of the public of the support of the public of the support of the public of the support of the support of the public of the support of the public of the support of the s Money paid for the support of the public schools is money saved, as education lessens and facts, Judge Withey, of Michigan, de- Utes cannot be effected until next year. REPORT OF THE LAND COMMISSIONER. and deding criminals. Of the criminals of the country, twenty-two per cent, are totally ignorant, fifty per cent, partially so and only a few are classically educated. Candidate for the Presidency-His Arraignment by the Asssistant-Secretary of His Own Committee Charges that are

Proofs in the Form of Letters from Marshall Jewell and Other Republicans.

New York Star: Hon. Dyer D. Lum is assistant-secretary of the Nationa back-Labor committee, of which Hon Thompson H. Murch is chairman, Thomas J Durant treasurer, and Lee Crandall secre-tary. Mr. Lum, in a letter which he addressed to Chairman Murch, and which has been issued in circular form, makes certain charges against the Greenback leaders in conducting the campaign, which if public conducting the campaign, which, if substan-tiated by proof, which he declares he holds in ais possession, will create no little scandal in the Greenback ranks, and will explain the in the Greenback ranks, and will explain the reiterated opposition of General Weaver to the fusion of his adherents with the Democrats in Maine, as well as the tone of his dispatches after the election in that State. It will also explain the extraordinary vehemence which characterized the language used in the dispatches of Secretary Crandall with regard to the Maine election, in which he violently assailed the Democrats for claiming any credit whatever in the Fusion victory. The letter is given below in full and explains itself: True Bills Found Against the Georgia

HEADQUARTERS NATIONAL COMMITTEE OF THE NATIONAL GERENBACK-LABOR PARTY, 903 PENNSYLVANIA AVENCE, WASHINGTON, D. C., September 29, 1880. on. Thompson Murch, Chairman National Committee Greenback-Labor Party:

DEAR SIR—The early election in Maine, and the necessity of attending to your own canvass, has prevented you from having personal knowledge of the manner in which the Greenback campaign has been managed in your absence. I desire to lay before you, and before the National committee, to each of whom I mail a copy of this letter, some facts which it is alike my duty to report and yours to take cognizance. Probably nothing I may say will surprise you, as directly or indirectly many of these facts have come to your knowledge within the past few weeks. That I may be understood, I distinctly make the charge that the Greenback National canvass, as now conducted, is manipulated in the vass, as now conducted, is manipulated in the interest of the Republican party, and General Weaver's expenses borne, in a large measure, from the Republican campaign fund. This is a serious charge, but it can be substantiated in every detail, and I believe that my duty to the

National committee requires that the facts should be laid before them. You will remember that on the 6th of July there was a member that on the 6th of July there was a meeting of a portion of the National executive committee at the St. James hotel, New York. There were present on that occasion, besides ourselves, General Weaver, Lee Crandall, Edward Daniels and George O. Jones, We were also assisted with the advice and counsel of Senator John P. Jones, of Nevada, At that meeting General Weaver suggested office department June 30, 1880, 5862 contractors for the transportation of the public schools of Memphis have constituted one of the most attractive features of the city and we hope their popularity and usefulness will not be diminished. They should never be permitted to languish, for it is there that the basis of character is laid. As in erecting the temple everything depends upon the foundation, so does the future life of the young depend upon the instruction they received at school when the body and mind are plastic and growing. If there be neglect or perversion, the penalty is perpetual. The

nounce fusion in Maine on every available occasion, and take such measures as, in his judgment, would be most conducive toward creating disaffection between the allied forces of Greenbackers and Democrats. This agreement I heard in New York before General Weaver had made a single statement to that effect in Maine. How well he tried to fulfill his contract you know. Every dispatch or circular emanating from these headquarters, or from General Weaver, has been drawn to injure the Democracy alone. His dispatch

disgusted with the treachery of our leaders, knowing from personal knowledge and correspondence that several of our State organizations, notably Indiana and New York, are managed in the interests of the Republican party, against whose robber legislation we organized, and the fact that the men who essay to lead our party to-day are duped and made the tools of crafty and scheming time-servers, renders my connection with the committee, as at present managed, no longer possible. For the members of the National executive committee in Washington I entertain no sther feelings than those of good will. They are simply carrying out a policy dictated by General Weaver, and borne along in a current against which they may think it suicidal to struggle. With them I have no controversy at present. I have not touched upon the relations existing between General Weaver's advisers and prominent Republican officials in Washington, in the post office and treasury departments, nor do I desire to unless efforts are made on their part to impeach this statement. In that case the facts could be spread before the National committee. Very truly yours, DYER D. LUM, Assistant See's Nat. Com. SKIN DISEASES.

BLOOD AND SKIN REMEDIES

The treatment of the strength, third alleviate the External Symptoms. There is but one way to purify the blood, and that is through the bowels, liven kidneys and akin. These organs are the natural purifiers of the system, and carry off waste or dead matter. Curicura Resouvent is the greatest blood purifier in medicine. It is a cathartic, a tonic, a liver stimulant, a diuretic, a resolvent and absorbent. It absorbs to itself the poisonous elements that float in the blood, and purges them from the system. It increases the appetite, perfects digention, and soon builds up faster than disease can destroy, and hence permanently cures. Curicura, a Medicinal Jelly for external application, arrests disease, cats away dead flesh and skin, allays inflammation, itching and irritation, renders healthy ulcers and old sores, and heals every external affection when the RESOUVENT is taken internally. It is a natural reproducer and beautifier of the Hair. Curicura Toller Soar, prepared from Curicura, is cleaning, healing, refreshing, and the only wholesome beautifier of the skin, which it softens whitens and preserves beyond all praise. Curicura, Shavirso Soar, prepared from Curicura, is the first and only medicinal scap compounded especially for shaving. Gentlemen pronounce it worth its weight in gold.

BLOOD HUMORS.

Messrs. Werks & Potter: Gentlemen.—I have been afflicted with a Blood Humor for two years, which the best city doctors called Erysipelas, chronic Psoriasis and Scald Head. My whole system, especially face, head and lungs was affected. I tried all the best known advertised remedies with no success whatever. Was told by the best lung doctor in this city, that the sooner i got cured the better. My symptoms were a humor accompanied by Glandular Swellings, with Ulcers in the Throat and Stomach, Dry, Hacking Cough, Deafness, with Ringing Noises in the Head. For fifteen months I have done nothing but take medicine with no benefit whatever. The Curicura Remedia have cured me, in gratitude for which I make this public statement.

ECZEMA

Messrs. Weeks & Potter: Gentlemen.—Have never used any remedies for blood diseases that can compare with the Cuticura Remedies. I have used them in all forms for a very severe case of what the doctors called Eczema, which was effectually cured in eight weeks. As a blood purifier, nothing can equal your Cuticura Resouvent. I can not say too much in their praise, and I am noising them about the city.

Truly yours, etc., MANUEL MANINTS.

General Weaver, the Greenback

startling, in Support of Which Dyer D. Lum Declares that he Holds the

DEAR SIR-The early election in Maine,

ters, or from General Weaver, has been drawn to injure the Democracy alone. His dispatch to General Plaisted, to Solon Chase, and his more recent circular letter confounding Senator Bayard with the Democratic party are cases in point and corroborative evidences of the truth of this statement. In my capacity as secretary, I have been under the necessity of visiting New York to see Governor Jewell and Assistant-Secretary Hooker, the first time in response to a written request from Marshall Jewell, which I still hold. On one of these occasions, at Governor Jewell's of these occasions, at Governor Jewell's urgent request, I visited General Chester A. urgent request, I visited General Chester A. Arthur, at his rooms at the Fifth avenue hotel, the subject of discussion being the effect of a Greenback campaign in New York and elsewhere on the Republican party; my object being to discourage the expenditure of their money in that direction. At one of these interviews Governor Jewell denied having paid to Mr. Jones any such sum as I had stated, and said that Mr. Dorsey hadonly given him \$1500, and that the rest probably came from S1500, and that the rest probably came from General Arthur for State purposes. As General Weaver had had at that time fully that amount from Mr. Jones, upon his own admission, the fact that more had been obtained is chicagon.

trous parlors occupied by the New York State Greenback committee for headquarters at the Albemarle hotel, New York City. These from scandal, and not see a cause we loved sacrificed through the treachery of a few, ha-induced me to remain silent heretofore. But now that it is becoming a matter of general suspicion, and General Weaver's course has called forth the protest of such honored leaders as Judge Hughes, of Pennsylvania, and others, I think, both for my own sake as well as your reputation and the integrity of the party. my own sake as well as your reputation and the integrity of the party, the truth should be known. When our party becomes a por-tion of the machinery necessary to elect the man to the Presidency who contemptuously referred to us in the discussion on the Weaver resolution in congress as the "spawn of a dying party," and who called upon his party associates to meet the "beast" the

party associates to meet the "beast," the "monster," and "throttle it," I think forbear-ance ceases to be a virtue. Much more when I am compelled to sit by and see schemes en-tered into and bargains made for the return of Republican members of congress over soft-money Democrats. What I have stated has come entirely under my own observation.
Further, I have in my possession letters and telegrams from the Republican National committee headquarters showing their solici-

QUARTERLY COURT

Cincinnati, October 4: Senator Conkling visited Chester driving park to-day and took a drive on the course behind the famous Maud S, in company with her trainer. Milwaukee, October 4: Burglars enter the Republican house of this city last night, taking from the rooms of half a dozen guests about \$1000 in value of jewelry and cash. Fort Wayne, October 4: Two men were run over by the express train on the Fort Wayne railroad at Delphos last night. They were William Quackenbush, who leaves a wife and three children, and a young man known as Frenchy. Both were lying on the track in a drunken stupor.

St. Louis, October 4: Edward Jones, a young man twenty-one years of age, had an altercation yesterday with Andrew Finley, his uncle, residing three miles from Salem, Illinois, and discharged the contents of a gun into his left breast, killing him instantly, Jones is still at large.

lay (Ohio) special, says: "Henry Renn and Simon Cash, sons of well-known far in the northern part of this county, have been arrested for passing counterfeit dollars, halves and quarters. At Pomeroy, Ohio, to-day one boiler of the Enterprise Flouring mill exploded, badly scalding two boys, Jomes and Milton Arnold, who happened to be in the mill. None of the employes were hurt.

WM. FRANK & CO.,

Rouillon Kid Gloves. 3, 4, 6 and 8 Buttons,

CHOICE ASSORTMENTS. We ask your attention to this glove, with assurance to its merit as a good kid in every respect. Its recognition by the leading Parisian and London glovers as the best on the market commends it to the notice of ladies wishing a comfortable and shapely

WM. FRANK & CO., 249 Main Street.

As CALORIC, electricity and phosphorus are induced and supplied by Fellows's Compound Syrup of Hypophosphites, it only requires the administration of this successful invention to fortify the feeble, give sprightliness and motion to the torpid, and bring about a condition which not only secures tenaciousness of life but makes life really enjoyable. No Proof More Convincing Could be produced to satisfy us that there is true merit in Day's Kidney Pad than the fact that it is being imitated. Already several worthless kidney pads are seeking a sale on the good reputation of this original and excellent pad.

If you will, but be sure to use Sozodont right away, in order to carry off its injurious effects upon the teeth. All candy-eaters should carry Sozodont with them, if they wish to keep their teeth sound.

which he claimed was due for his services. He avers in his complaint that the earnings of the elevator have been sufficient to pay the indebtedness, but that the company, instead of allowing him to execute his trust, paid the greater amount of the indebtedness itself. The company alleges that Hughes was disqualified in 1864, and that the company had a perfect right to redeem its bonds. Two Pork-Packing Establishments

BALTIMORE, October 4.—The extensive pork-packing establishment and slaughter-house of Foss & Homer, at Canton, adjoining the city limits, were burned this afternoon with their contents, consisting of a large stock of meat. The fire communicated to the pork-packing establishment of Paul Gabel, adjoining, which was also destroyed with its contents. Foss & Homer's loss is estimated at \$50,000; insurance, \$30,400. Gabel's loss is estimated at \$20,000; insurance, \$10,000.

Chicago, October 4.—The growing receipts of grain at Duluth are attracting considerattention. During September there were received over the Northern Pacific at that port of No. 1 hard wheat 421,426 bushels; No. 1,62,924; No. 2, 242,222; rejected, 8740. Total,735,312 bushels. It is especially noticeable that over fifty-seven per cent. of this grain is of the highest grade—a very unusual showing in such statistics.

PRINCETON, N. J., October 4.—The Pan-Presbyterian council visited institutions and places of interest to-day. Drs. Main and Lang, of Scotland, Rev. M. S. Heshadri, of India, Dr. McCosh and Professor Green made addresses to a large audience in the First Presbyterian church. After dinner the

council by special train returned to Philadel DISTRESS after eating, the results of indigestion, will no longer be experienced if a tablespoonful of Simmons Liver Regulator is taken after each meal, and, by persevering in the use of this remedy for a few weeks, a permanent cure will be effected. It is not unpleasant to the taste, does away with sickening medicine or pills; is a mild laxative, but does not nauseate or irritate the stomach, and, unlike any other known medicine, when its use is discontinued, the system is not left constipated or costive. It is very properly called the Regulator—it removes bilious secretions, cleanses the blood, strengthens the kidneys and assists nature. It takes the place of quinine and bitters of all kinds; is no violent drastic medicine; is gentle and harmless, and warranted not to contain a single particle of any mineral substance, but is purely vegetable.

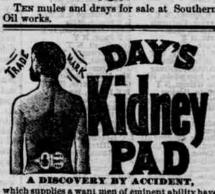

Removal. The Parisian Shirt Factory has moved to No. 256 Second street (up-stairs). Mons. Renoult is perfection in fitting, and makes shirts to order for less money than can be found elsewhere in this city.

MILWAUKEE, October 4.—The Britton house at Eau Claire was burned this morning. Loss, \$6000; insurance, \$1500.

reliable remedy.

DISEASES OF THE HIDNEYS the most prevalent, dangerous, and fatal affecons that afflict mankind, and so varied and insidous in their character, that persons often suffer
or a long time before knowing what alls them,
he most characteristic symptoms are a gradual
asting away of the whole body; pain in the back,
de or loins; a weak feeble, exhausted feeling;
so of appetite and dread of exercise; scanty and
ainful discharge of variously colored urine; inslity to retain or expel the urine; minute shreds
casts in the urine; and, when the disease is of
ong duration, there is much emaciation and genral nervous prostration.
